

We represent some of North America's most reputable Mechanical & Electrical Contracting and General Contracting companies for major industrial, commercial, institutional and infrastructure projects.

Immediate openings in Edmonton and Calgary

Are you currently a **Mechanical Estimator** working for a General Contractor in North America that you feel is not capitalising on your full potential?

Then this is the opportunity for you

As the Senior Mechanical Estimator, you will work across internal departmental lines and on site with contractors on a daily basis to ensure the smooth progression of a major new development project throughout its early stages.

Duties (but not limited to):

- Estimating and tendering for mechanical projects
- Break final estimates down into job budgets once the job is awarded
- Liase with the site teams to facilitate labour and productivity tracking
- Handle the purchasing of all materials and equipment as required
- Preparing preliminary estimates upon the request of clients, engineers and architects
- Prepare estimates for contemplated change orders or claims for on-going projects

My client is looking for SOME of the following:

- 10 years + estimating experience in a similar role
- C.E.T, PMP, Gold Seal Certified, LEED AP
- Thorough understanding of the tendering & bidding process
- Strong Leadership ability
- Excellent communication, interpersonal and negotiation skills
- Must be internally motivated to succeed and get the job done right

**** You should ideally be from a contracting background with at least 5years + experience of ICI projects. Qualified to certification level, your knowledge of tendering, conceptual estimating, material take off and industry codes will help you with this very demanding but rewarding role****

PLEASE INCLUDE A PROJECT LIST WITH YOUR APPLICATION

If you have the qualifications listed above, we want to hear from you! Please forward your resume (*in confidence*) with "Mechanical Estimator" in the subject line to zkamal@bbtglobal.ca or fax 403-718-0456.

Alternatively if you would like to discuss the position in further depth or have any questions, please feel free to contact me directly on the number below:
