

## **SIBMS Dashboard Specialist** **Oil Sands Site (Oil Sands Business Group)**

**Contact Daniel in HR @ (403) 301-7664 or email your resume to [jobsinfmac@convergent.com](mailto:jobsinfmac@convergent.com) to apply**

*Convergent Technologies* is one of North America's fastest growing systems integrator companies. With a dedicated focus in Electronic Security, Fire Alarm & Life Safety, and Building Automation Systems, we provide a wide range of product solutions in each business area, and are committed to being the industry's best service provider.

Currently we are looking for a SIBMS Dashboard Specialist who will work with the Suncor Operations Team.

### **Job Overview**

This role requires strong IT skills to develop, update and maintain the graphical user interface (GUI) for the TAC Vista system including administration of alarm, trending and scheduling functions. Solid presentation and facilitation skills are also required in order to provide training and direction to the building operations technicians at site in the use of the system for monitoring and control of the HVAC systems.

You will liaise with the BMS commissioning and service groups on new projects commissioning and accept the turn-over on behalf of the Operations Group. You will also be responsible for the integration of the new project databases and automation systems into the existing BMS infrastructure.

### **Knowledge, Skill and Experience**

- Minimum five years experience with building automation systems.
- 2 years experience with graphics development.
- Strong understanding of building systems including HVAC, Security, Access Control and Fire Alarm.
- Strong oral and written communication skills are required, as is the need for effective time management skills, and the ability to manage and respond to behavioral and cultural change.
- Experience in the installation, commissioning and maintenance of building automation systems.
- Technical school certificate or diploma in a directly related field preferred. Associates degree (2 year) or Bachelor degree (4 year) in a technical area is desirable.
- Direct management or supervisory experience of personnel preferred.

### **We Offer**

- Immediate comprehensive benefit plan; RRSP Matching Plan.
- Training and ongoing support, opportunities for advancement
- Fun and laughter in the workplace.

If you are interested in an exciting career with *Convergent Technologies*, please submit your resume and cover letter by **November 30, 2009** detailing why you are a fit for this position.
