

If you are looking for a position that offers growth and innovation, you are looking at the right company. Sprint Insight Inc is extremely active in the Design Build Construction market. This new and exciting field offers challenges and unique situations on a daily basis. Our motto is "Total Responsibility" in all areas of our business. We have been able to achieve this goal during our fifty year history as mechanical contractors.

MECHANICAL PROJECT MANAGERS

We are currently seeking a construction project manager to work on design build commercial projects in the Greater Toronto Area.

The ideal candidate must have superb communication abilities and sound management skills. Previous experience as a project manager in the mechanical commercial sector is required. Reporting to the Operations Manager, duties include;

- Managing a few projects simultaneously
- Meeting or beating estimating/sales targets for each project
- Liaising with engineers, subcontractors and general contractors
- Managing budgets and submitting progress billings
- Organizing all paperwork associated with each project
- Estimate extras to project contract
- Obtain quotes, purchase and coordination of sub trades and suppliers
- Represent company at project meetings
- Produce and report on project schedules to management

Position requirements:

- Excellent organizational skills
- Excellent leadership ability
- Excellent communication skills in all areas
- The ability to read mechanical drawings
- A working knowledge of computers
- The ability and desire to grow with the company

In addition, candidates with the following qualifications will be given priority consideration:

- Prior experience working on design build projects
- Working knowledge of Microsoft Project Management software and similar PM software

The company also requires the successful candidate to possess a valid driver's license and access to a vehicle.

Please send all resumes in word format to resume@sprintinsight.com or fax at (416) 747-6903.

Please note that only qualified candidates will be contacted for an interview.
